

“EL REGAJAL” POND EDGES NATURALIZATION, ARANJUEZ

“El Ragajal” pond is located in a private property within the Aranjuez Township, Madrid. At the same time it belongs to the South-east Regional Park, within that lands the Consejeria de Medio Ambiente built a butterfly centre hence this is one of the most important butterflies reserves in Europe. The main objective was to store water for water the vineyards and it becomes at the same time into a social and landscape objectives. In order to reach the proposed objectives we decided to grow the edges, which for the time being were covered by waterproof plastic, Fiber RoITM vegetated and PlantCarpetTM were installed along the edges.
